## PROMPT ACTION AVERTS EARLY MORNING FIRE

Shortly before dawn Monday morning Mrs. Cornelius McCarthy, of Smoky Hollow road was awakened by volumes of stifling smoke which flooded the second floor of the dwelling. Her prompt action in jumping out of bed and racing bare-footed through the snow to notify her husband probably saved the building from destruction.

The fire was confined to the room in which it started. It was caused by an overturning chair, which brought a quantity of clothing in direct contact with a hot stove pipe. One hundred dollars covers the amount of damage.
